About me

As a professional Full Stack Developer, I have demonstrated proficiency in a wide range of programming languages and Frameworks/Libraries including NodeJS, ReactJS, MongoDB, JavaScript, express, HTML, and CSS. My transition into the tech industry was marked by outstanding performance milestones, culminating in the successful completion of a 400-hour boot camp at New Jersey Institute of Technology in 2022. I am eager to progress and challenge myself with new technologies, and my enthusiasm for continuous learning makes me a valuable asset to any tech team. If given the opportunity, I am confident in my ability to make significant contributions to the field.

Education

New Jersey Institute Of Technology

Graduation Nov 30,22

Boot Camp

Courses:

- HTML and web Accessibility
- CSS and framework
- UI and UX
- Javascript and Frontend development
- backend and APIs

Skills Profile

-
- Software Development Certificate
 - **Databases:** Sql,Mysql,PostgreSql,MongoDB
 - **Security:** cross-site-scripting (XSS),Authentication & Authorization,and Hashing vs. Encryption.
 - **Deployment tools:** Heroku and AWS

Project Experience

- **MERN Stack App | NJIT Bootcamp** **June 2022 - Sep 2022**

My team and I showcased our skills in React, Redux, PostgreSQL, and NodeJS by developing a cutting-edge MERN Stack Application for our third milestone project. We effectively utilized our GitHub workflow and delegated tasks to produce a tailored application that demonstrates our expertise and understanding of the latest technologies. Working alongside my talented peers, I contributed to the development of a top-of-the-line project, which can be found at [<https://todolist-project-frontend.herokuapp.com/>]. This project taught me valuable skills that I am excited to apply to future endeavors.

Heroku Backend: <https://todolist-project-backend.herokuapp.com/>

- **Browser Game App (quiz) | NJIT Bootcamp** **Aprile 2022 May 2022**

I developed an engaging quiz game using HTML, CSS, and JavaScript as a milestone project to showcase my programming skills. This browser-based project demonstrates my ability to create interactive and visually appealing applications for personal or professional use. While the project is not yet perfect, I welcome any feedback to improve it. You can check out the project at <https://guuree19.github.io/A-BROWSER-GAME/>
